

# PORTABLE HVAC & POWER SOLUTIONS

**PERFECT FOR**  
**Construction**  
**Disaster Recovery**  
**Special Events**

**Our Cool-Max utility trailers are complete packaged systems that provide mobile power, air-conditioning and/or heat for your site. The supplemental systems are a fully integrated solution which can be safely towed from site to site.**

Our turn-key packages are designed for temporary or permanent solutions. They are ideal for emergency response locations, construction sites or special events. All of our equipment is subjected to rigorous factory testing and offer immense versatility and outstanding performance.

The HVAC units range from 4-10 tons and are matched to a variety of generators designed with noise reduction technology, and can be equipped to run off gasoline, diesel or grid power.<sup>1</sup> Each system also includes a 40 foot return air duct.

## SYSTEM FEATURES

- 100% mobile and self-contained
- Removable for easy rooftop installation
- Noise-dampening insulation
- All PTI equipment is subjected to rigorous factory testing

## GENERATORS

- Designed with noise reduction technology
- Extended run time capability<sup>3</sup>
- Options: flood lights, tool box

## HVAC UNITS

- Electrostatic filter
- 4-10 ton models
- Built-in UV germicidal lamp
- Includes return air duct system<sup>2</sup>

## TRAILERS

- Fork pockets that allow for easy removal of units
- Meets DOT standards

## SPECIFICATIONS

Standard Models	Tons	Generator Output <sup>4</sup> (watts)	Cooling Temp. Range
VER-4	4	15,000	55-70F
VER-6	7.5	25,000	55-70F
VER-10	10	30,000	55-70F

**COMPLETE YOUR PORTABLE SYSTEM WITH A TENT PACKAGE AND/OR SUPPLY DUCT ASSEMBLY**

- <sup>1</sup> Power distribution assembly sold separately.
