As an emerging leader in portable, off-grid, air, power and air purification solutions, Power Technology Industries (PTI) has developed and partnered with premier manufacturers offering innovative solutions tailored to meet our customer's requirements.

PTI's commercial division specializes in the development and production of industrial air products using 100% outdoor air as well as products used for emergency air & power and air & surface sanitation. Our ground support equipment division focuses on sourcing and partnering with premier ground support equipment manufacturers bringing high quality, cost-effective solutions to airports, airlines and military customers.

## OUR MISSION IS SIMPLE

*To be a solutions leader – bringing innovative, clean and healthy air, power and air sanitation products which increase the confidence and quality of life of our customers.*

## CORE COMPETENCIES

### PTI Industrial Air

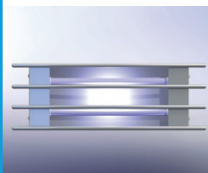

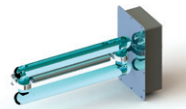

- 100% outdoor air solutions with built-in UV purification
- Elimination of *dirty* recirculating return air
- Reduction in passage of airborne contaminants
- Provide clean, cool and purified outdoor air

### PTI Off Grid - Portable Solutions

- Mobile, easily transportable, trailer-mounted units specifically designed for construction, natural disasters and outdoor venues
- Immediately supplies stand-by or continuous power, air conditioning and heat
- Continuous 8-20 hour supply of air conditioning and power
- Focus on air purification: airstream cleansing, contaminant reduction
- Powerful generator-driven units ranging from 15-30kw
- Easy to operate and maintain
- Sound dampening technology
- Clean, energy efficient, readily available in diesel or gas

### PTI Clean Air + Surface Solutions

- Powerful surface and air sanitation
- Safe, easy to use and easy to maintain germicidal eradication equipment
- Reduce contaminants – Reduce airborne illnesses – Increase air quality
- Continuously clean and sanitize air coils and discharged air
- Sanitize up to 1200 sqft

## DIFFERENTIATORS

- First AC unit for the industrial sector using 100% outdoor air
- Self Sufficient Systems – Portable and removable air + power combo units
- Product Development Excellence – Team of industry and product experts with over 60 years combined experience
- Providing clean 100% outside air versus traditional system using recirculating return air with potential to increase contaminants
- Mobile Solutions – incorporating air conditioning, portable power and shelters (tents)
- Unique UV-C Systems – capable of disinfecting surfaces – Packaged for hotels, schools, hospitals, factories restaurants, offices and HVAC systems, protecting valued customers and providing safety confidence
- Custom Solutions – ability & know-how

## CODES + CERTIFICATIONS

### NAICS

- 333924 Industrial Truck, Tractor, Trailer, & Stacker Machinery Manuf.
- 336413 Other Aircraft Parts & Auxiliary Equipment Manuf.
- 423490 Other Professional Equipment & Supplies Merchant Whole.
- 423710 Hardware Merchant Whole.
- 423840 Industrial Supplies Merchant Whole.
- 423990 Other Miscellaneous Durable Goods Merchant Whole.
